

PRODUCT DATA SHEET

Rebar Buddy™

Unique, innovative, environmentally friendly solution for rebar protection. The Rebar Buddy™ range is the sustainable alternative to the traditional plastic products.

PATENT PENDING
REGISTERED DESIGN

With a cradle-to-cradle feature, these are designed to be sustainable and environmentally friendly from the ground up. Made with materials that are not only durable and reliable, but also recyclable and reusable. This means that once the product has served its purpose, it can be recycled and used again to make more Rebar Buddy™ products, creating a truly circular economy.

With a minimal impact on the environment, the Rebar Buddy™ range meets strict environmental and social criteria. In addition to being environmentally friendly, our products also have superior performance and durability. The products are constructed from materials that are proven to withstand the toughest conditions, making them the ideal choice for any construction project.
