PRODUCT OVERVIEW

The Selkent Wrecking Bar range is designed for high-leverage pulling, prying and lifting applications. Available in 24-inch and 36-inch lengths, the range gives users a choice between compact handling and increased leverage.

Both models are manufactured from EN-9 steel for strength and durability during demanding site and workshop tasks. The single-bend design provides an effective working angle for controlled prying and demolition work.

KEY PRODUCT HIGHLIGHTS

- Dual-Ended Versatility
- Heavy-Duty EN-9 Steel
- Hexagonal shaft for additional grip
